

USE OF SCHOOL VEHICLE COSTS

The following criteria for use of a charter bus should be taken into consideration by the administrator:

- Distance of the trip
- Weather conditions
- Duration of the trip
- Health of the students involved in the trip
- Cost to the participants and/or district

If an organization that normally is not provided district paid transportation wants to use a school bus or if an organization that normally is provided district paid transportation is approved to use a charter bus service, credit will be issued to a FUND 10 or 60 account as determined by the Transportation Director at the current costs for a vehicle and driver.

APPROVED: January 28, 2008

REVISED: September 22, 2008
