

## November 8th, 2016 Referendum Question 2- \$5,000,000

---

The West Salem School District School Board has approved the following school district referendum. The referendum will consist of two questions. The second will address improvements to several campus facilities including the construction of a multi-purpose events facility.

*Approval of Question #2 would allow the school district to complete the following:*

### Improvements to Campus Facilities

- Renovation of the running track
- Construction of additional seating in the football/track stadium
- Construction of three-diamond softball complex and renovation of the current varsity softball diamond into a junior varsity baseball diamond
- Construction of a new eight-court tennis facility
- Completion of the related site improvements to include a parking lot and access road

and Excellence**

### Construction of a Multi-Purpose Events Facility

- The proposed multi-purpose events facility is a large open space facility that will serve as the center of a sports complex located near the current soccer fields. The building will accommodate a number of school related activities including:
  - Ice hockey
  - Indoor practice for soccer, softball, baseball, track, and tennis
- The restroom, concession, and changing areas will be designed to service the surrounding outdoor events, including soccer games, softball games, tennis matches, and cross country meets.
- This facility is also expected to function as a community events center with the ability to host a wide range of activities and events.

The school board will consult with a financial advisor from RW Baird to finalize referendum financing and possible property tax impact at the school board meeting on September 12th.
