Explanation of District Funds

Fund 10

This is the general fund for the instructional operating services for the School District. It includes items such as teachers, administrators, and support staff salaries and benefits, supplies, textbooks, desks and other capital purchases, maintenance, utilities and co-curricular costs.

Revenues in Fund 10 include local property and mobile home taxes, state aids (transportation, library aid, and state equalization aid), and federal aid, mainly in the form of Title program support. Additionally, school revenues from tuition, student fees, admissions and building/bus rentals are included. The district is roughly 59% aided with state equalization funds.

Fund balance refers to the accumulation over time of any differences (positive or negative) between budgeted revenues and expenses. At the end of any fiscal year, if actual revenue exceeds the amount budgeted, or if expenses fall below the amount budgeted, that difference is added to the fund balance. If revenues are lower than expected or expenses higher, that difference is subtracted. The fund balance ratio measures the amount of unrestricted, spendable equity to the districts annual current year expenditures. The goal of the School District is to maintain a year-end fund balance between 12-17% of the next year's budgeted expenditures. The district's current ratio is about 14.2 %.

Fund 21

This fund has been established to separate gifts and donations from private parties to be used for specific district operations. The amount does not have to be spent within the fiscal school year and the funds are encumbered to meet the explicit requirements of the sponsor.

Fund 27

Over ten years ago the State decided to track the expenses for special education services separately. These services are designed to meet the individual needs of students with identified needs such as learning, behavioral, speech and language, autism, other health impairment, hearing and vision impairment, occupational therapy, physical therapy, and cognitive disability. Over 98% of the students identified are served within our school district, while only a few with unique and/or high frequency needs are served in other area schools and/or health facilities.

Fund 27 revenues in 2013-14 included a transfer from regular education (Fund 10) in the amount of \$1,574,377, in addition to Categorical Aid, Federal IDEA Flow Through and IDEA Early Childhood funds, Medicaid revenues and other grants.

Fund 38

This fund is used to record debt issues authorized by the Board of Education. The school district currently has a long-term note for technology that will be paid off in 2016 and a long-term note for the 2014 purchase of 25 acres of land that will be paid off in 2019.

Fund 39

Voters approved referendums to pay for the elementary school and high school additions. The District's

Administration works with a bonding agent and refinances callable bonds when allowed. As reflected on the enclosed debt service schedule, a significant drop in the mill rate will occur in 2015 when the 2002/2011 refinanced elementary school bonds and 1998/2008 refinanced high school addition bonds are fully paid.

Fund 50

The School District of West Salem provides a breakfast and lunch program at all schools. Additionally, an ala carte program is offered at the high school. These services are independent and self-supporting. Fund balance reserves exist to pay for equipment upgrades and/or repairs as needed.

Fund 72

This fund is used to account for gifts and donations specified for the benefit of private individuals and organizations not under the control of the school board such as scholarships for graduated students. These funds are administered and distributed according to the requests of the benefactors.

Fund 73

The GASB (Governmental Accounting Standards Board) considers post employment benefits like pension and health insurance benefits, as part of the compensation employees earn each year, although they are not received until after employment ends. School districts are required to maintain the funds in a legally established irrevocable trust.

In May of 2007, the Board established a Fund 73 Trust. The funds are governed by a Trust document and board members. The school district contributes and withdraws current year expenses for retired employees. The account balance as of June 30, 2014 is \$1,737,901.02. These funds are not considered assets of the school district. Bond rating firms consider how a district is addressing this issue before issuing bond ratings.

Fund 80

The School District of West Salem operates a community swimming pool and a fitness center. The swimming pool is open during the summer months and offers open swim time, family swim, adult lap swim, adult early risers, water aerobics, and hosts a swim team for youths 8-18 years old. The fitness center includes a cardio theater with TVs, elliptical machines, treadmill, climber, recumbent and spinning bikes, in addition to an indoor walking and running track, strength and resistance machines and fitness classes. Local not-for-profit groups may also request to use designated school facilities free of charge.

TIF District

The community of West Salem has established a Tax Incremental Finance District (TIF) for the purpose of promoting the growth of economic development. Businesses in the TIF district pay taxes at the same rate as other area business, however, the taxes are captured and used to pay off the development costs (roads, water, sewer). When these expenses have been paid, the property's value is then a part of the overall evaluation of the district and the tax rate is reduced for all taxpayers.

West Salem School District Policy 662.2

FUND BALANCE

Fund balance is the amount by which all the assets of a fund exceed all the liabilities of a fund. The fund balance does not necessarily represent the District's cash position. Cash is an asset, but is usually not the fund's only asset. Additionally, a fund may have liabilities, such as an accounts payable amount due to a supplier which, when paid, results in a decrease in fund cash balance.

Government Accounting Standards Board (GASB) Statement 54, indicates that all dollars in a fund balance must be accounted for in one of the following classifications:

- Nonspendable not in spendable form or legally or contractually required to be maintained intact (example: inventory, endowment or principal of a permanent fund).
- Restricted resources are constrained by creditors, grantors, bondholders, regulations, or law (example accounts payable).
- Committed directed by the Board through formal action (example: Board-directed expenditure for an identified capital project).
- Assigned to be used for specific purposes, but not meeting the criteria for restricted or committed.
- Unassigned- the residual classification for the general fund, also for funds with a negative fund balance. Unassigned amounts are technically available for any purpose.

All fund balance other than those that are nonspendable, restricted, or committed for another purpose are committed for cash flow purposes.

The Board recognizes a need to carry an operating reserve of unallocated funds to be used for unanticipated expenditures for the best fiscal management of the fund balance, the appropriation of these operating reserve funds must be approved by at least five members of the Board.

The Board shall, as part of the budgeting process, annually review the fund balance to make sure an appropriate balance is maintained. It is the goal of the District to maintain an end-of-year general fund (Fund 10) balance, amounting to between 12% and 17% of the next year's budgeted expenditures.

APPROVED: October 10, 1985 REVISED: December 5, 1995

A look at school fund balances yields surprises

The fund balances, or financial reserves, of school districts can help assess their fiscal strength. Over the past 20 years, these reserves have grown fastest when state finances and school funding policy were most uncertain. Since 1991, total statewide fund balances have grown 32.2% from \$0.73 billion to \$2.1 billion last year. Balances in 2013 averaged 21.4% of total school expenditures.

The volatility of the economy and state budgets in the past decade has prompted questions about the financial health of Wisconsin school districts. One way to assess that health is to examine the financial reserves, or fund balances, of districts. As it turns out, the trend in balances is somewhat surprising.

Fund balances: What? Why?

Fund balances are often explained using a common analogy. A school district without a fund balance (reserves) is akin to a household without savings. Unfortunately, this is an oversimplification. "Fund balance" is actually an accounting term defined as the difference between assets (e.g., cash or investments) and liabilities (e.g., debt).

From this perspective, several caveats emerge. First, a fund balance can include both cash and non-cash items. For example, a school board might commit \$500,000 of cash reserves to a forthcoming remodeling project. The amount is still included in a district's balance, but it cannot be used for other purposes.

Second, a fund balance is a snapshot in time. Like an individual's checking account, balances fluctuate from month to month. Here, school fund balances are examined as of June 30, the end of the 2013 fiscal year.

Third, school district revenues are "lumpy": State aid is paid five times per year, while property taxes are typically received only two or three times

annually. Meanwhile, expenditures such as compensation often occur monthly. In order to pay these expenses while awaiting property taxes or tardy state aid, districts turn to their reserves to avoid borrowing to pay bills.

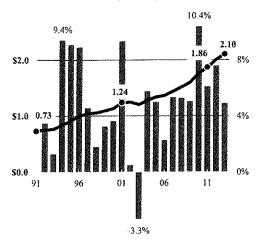

Statewide trends

New state figures show school fund balances totaled \$2.1 billion (b) in 2013, or 4.9% more than in 2012. The increase was the smallest since a 2.3% rise in 2006.

With the exception of 2003, total school fund balances rose every year since 1991 (see line in chart). Increases were often largest when state school funding was most uncertain. That suggests fund balances are also acting as a hedge against unpredictable economic or political behavior.

For example, balances rose 8.9% or more annually during 1994-96 after the state first imposed limits on school revenue growth. Unsure of how the limits

School Fund Balance Totals Rise Statewide Balances (line, \$b) and % Chg. (bars)

would affect their finances, school officials boosted reserves as a precaution.

Similarly, annual balance increases during 2010-12 were high, ranging from 6.1% to 10.4%. State budget difficulties were behind much of the uncertainty. In 2010 and 2011, allowable increases in school revenue limits were reduced. Then, in 2012, limits were cut 5.5% (though partially offset by Act 10 savings). Not knowing the long-term effects of the act, school officials again hiked fund balances.

Relative to spending

Since the size of school district budgets varies in Wisconsin, it is usually wise to consider, not the dollar value of fund balances, but rather their size relative to school expenditures.

Statewide. In 2013, district balances statewide averaged 21.4% of spending, up from 20.6% in 2012 and 17.9% in 2011. During the prior five years, this figure ranged from 16.3% to 18.0%.

Reasons for the 2012 and 2013 increases are twofold. The most obvious is that the total dollar amount of balances rose. At the same time, total school spending dropped more than 6% in 2012 and rose less than 1% in 2013.

By district. While state totals capture overall trends, balance size varies considerably by district. As a percentage of 2013 spending, it ranged from -10% in Gresham to more than 80% in Lakeland UHS, North Cape,

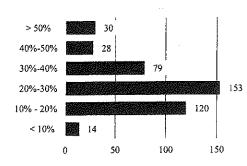

and North Lakeland. As the chart (right) shows, most districts ended 2013 with balances between 10% and 30% of spending.

The recent direction of fund balances has also varied. In 66 districts, balances fell during 2009-13. In 18 of the 66, reserves fell more than 20%, though in nine of these, reserves continued to top 15% of spending. In Altoona and Wisconsin Rapids, balances dropped more than 50% and are now under 6% of spending.

By contrast, ending balances in 45 school districts more than doubled during the same five-year period. And, in another 89, they increased 50% or more. Just over half (71 of 134) of these districts ended 2013 with fund balances that equaled 25% or more their annual expenditures

Distribution of Fund Balances No. of Districts by % of Spending, 2013

Irony: Pot vs. kettle

There is more to school district financial health than the size of a fund balance. Facility condition, staff turnover, and net gain or loss of students to other districts can all point to potential problems.

However, it is fair to say that many Wisconsin school districts have been building reserves to ensure future fiscal stability at a time of spotty economic recovery, divisive partisan politics, and boom-bust state budgeting. Ironically, the source of the latter is state government's inability for years to build any meaningful budget reserves.

Capital Notes

- Of 2.78 million Wisconsinites who filed a 2012 federal income tax return, 34.6% itemized deductions compared to 31.6% nationally. Percentages varied widely by state, from 18.3% in West Virginia to 46.8% in Maryland. Among neighbors, only Minnesota (37.7%) had a higher percentage than Wisconsin. Itemized deductions include those for state and local taxes paid, mortgage interest, and charitable contributions. (Source: Pew Charitable Trusts)
- The Indiana Department of Revenue halted \$78 million in 2014 tax refunds after a Special Investigations Unit revealed that at least 39,000 tax returns involved cases of attempted identity theft. Just 1,500 cases of identity theft were reported in 2013. Of the \$78 million, \$39 million was due to improperly claimed credits and deductions by legitimate taxpayers. Whether these filing errors were intentional is unclear. (Source: State Tax Notes)
- A new law enacted by our neighbor to the south requires online retailers contracting with Illinois firms to collect sales taxes. The Illinois Supreme court struck down a similar law as discriminatory in October 2013. However, the old law required tax collection by out-of-state retailers to whom business was referred from in-state firms via the internet. Illinois' new law applies to all out-of-state retailers, regardless of referral method

The following ground rules will be used for the annual meeting.

1. Qualifications of Voters:

Each person voting at the Annual Meeting must be: A citizen of the United States, 18 years of age or older; and

A resident of the District for at least ten days before this meeting.

(Section 6.02, Wisconsin Statutes)

Only qualified voters may make a motion.

West Salem School District
Policy 175

If a person is challenged as to his qualifications to vote, the Chair shall state the above qualifications necessary to vote to the challenged person. If the challenge is not withdrawn, the Chair shall administer the following oath and affirmation to the challenged person:

"You do solemnly swear (or affirm) that you are an actual resident of this School District and that you are qualified according to law to vote in this matter."

A person taking such oath or affirmation shall be permitted to vote, but if he refuses to take such oath or affirmation, he may not vote.

(Section 120.08(5), Wisconsin Statutes)

2. Voting Procedure:

All voting shall be by STANDING or RAISING OF HANDS.

Ballots have been prepared should a motion for a paper ballot be approved. Motions for a paper ballot must be made for each resolution and should immediately follow the motion on the resolution. The motion for use of paper ballots is not debatable.

Two members of the community will be chosen as counters.

3. Procedure for the Election of a Chair for the Annual Meeting:

The School Board President shall call for nominations from the floor three times; whereupon he/she shall ask for a motion and a second that the nominations be closed, whereupon there must be a two-thirds majority vote to close the nominations.

The vote shall then be taken and recorded, if more than one person is nominated.

The newly elected Chair shall then assume his/her duties for this evening's meeting.

This concludes the GROUND RULES for the meeting.

4. Procedure for Addressing the Chair:

Each speaker shall rise, wait to be recognized by the chair, state their name and address before addressing the Chair.

5. Procedure for Making Motions:

All motions made shall pertain to the Powers of the Annual Meeting

All motions made for items NOT ON THE AGENDA, shall be written, signed (including name and address), and presented to the Chair before action is taken.

This procedure is requested to assist our Secretary in the accuracy of taking the minutes of the meeting.

This procedure SHALL NOT APPLY to amendments to a motion.

6. Discussion Procedure:

If you would like to address the School Board, please adhere to the following guidelines:

When recognized by the Board President or Chair of the Annual Meeting please identify yourself by name and state your address. If you are representing a group or organization, please note this information also.

Please limit your comments to no more than 5 minutes. Once all speakers who have indicated an interest to speak have had an opportunity, opportunities will be given for others to speak again.

7. Parliamentary Authority:

A parliamentary authority, Robert's Rules of Order Newly Revised, to be consulted to guide the meeting?
