

Automatic External Defibrillator

All operational Automatic External Defibrillator(s) (AED) will be maintained

The District nurse will be in charge of ensuring that each is in daily operational order.

The maintenance and testing schedule is as follows:

- A. Status indicator will be checked on a daily basis during the school day when school is in session by Health Assistant or other delegated person.
- B. Supply inventory will be checked for change or expiration dates on the first Monday of each month by the school nurse or other delegated person.
- C. Program documents and documentation of maintenance and testing will be saved for five (5) years in the nursing office in the high school.

Staff members will be trained in use of the device as stated on their job description.
