

Outdoor Education Center/Forest Revenues

The sale of school forest products (timber, gravel, etc.) shall be based upon good forest management practices and shall follow appropriate bidding procedures as defined by Wis. Stats. 28.22. All timber sales shall be clearly marked and designated for cutting by a state forester.

Net proceeds received from the sale of school forest products shall be designated to support the instructional program(s) in our school forests and/or accumulated for a future school forest capital project.

Up to \$10,000 of the annual proceeds shall be placed in the most appropriate school district fund and earmarked for use at the OEC. The balance of the proceeds will be placed in the general fund.

Proposed expenditures for site improvement shall be determined by the District School Outdoor Education and Building and Grounds Committee with final approval by the Board of Education.
