

SCHOOL-COMMUNITY RELATIONS GOALS

The Board recognizes that positive public relations are vital to the successful operation of the district.

While the responsibility and authority for the operation and management of the district rests with the Board, the Board recognizes that the district, as a public entity, belongs to all of the people in the district.

In the establishment of policy and in the operation and management of the district, the Board shall make every effort to be cognizant of the will of the people of the district as a whole and shall not allow special interest groups to have undue or improper influence on the Board. By the same token, the Board shall not ignore individuals or groups solely because they represent a minority opinion but shall give their wishes careful consideration.
