# Letter from Superintendent Ryan Rieber

### Working Through It Together

Let me begin by saying thank you! You are our most important partners. This past year, that was truer than ever. You became your child's teacher, coach, and constant presence in an uncertain world. Thank you for the effort you made to support our educators and your child's learning from home. I am proud of how our Panther Family has responded to the COVID-19 virus. As a District, we were able to protect everyone while continuing to educate and feed our students. Our new normal will be very different than in previous years. As we all adjust, I know we will continue to respond to this health crisis with flexibility, creativity, patience, partnership, care, compassion, grit, and gratitude.

While we are in the business of educating, our priority is the safety of our students and our employees. The purpose of this message is to share the educational options for our families to meet the educational needs of their children. Moving into the school year, we will be working in partnership with the La Crosse County Health Department and the four other school districts in La Crosse County. Throughout the school year, we will be following the La Crosse County Compass for di-

rection on how we will be instructing our students and student participation in co-curriculuar activities. We know that this is going to be a fluid situation. Knowing that this is going to be a year of flexibility and change and knowing the challenges that this will have with our families, we have worked to provide options to continue to educate our children. We have worked in partnership with our other county schools to build the Coulee Region Virtual Academy (CRVA). We greatly appreciate the feedback that we have received from the survey that was sent out during the creation of CRVA. Responses back from this survey were more than we have ever received before! The answers to the question "What would you like us to consider or improve as we prepare for the upcoming school year?" was very helpful and we greatly appreciate your time and thoughts that you put into the survey.

Please understand there is no way for us to satisfy all as we make these decisions. Our priority is to keep everyone safe while not making life more difficult for our parents. Each family situation is uniquely different. We fully understand the variety of concerns about health and safety, distance learning, the importance of face-toface instruction,

parents needing to work, the economy, and all of the other unexpected implications of these decisions. It was stated by James Hunter, "Change takes us out of our comfort zone and forces us to do things differently, and that is hard. Challenges to our ideas force us to rethink our position, and that is always uncomfortable." The way in which we ended our 2019-20 school year was not anticipated by anyone. The way in which the 2020-21 school year will unfold is a book yet to be written. We know that the COVID-19 pandemic is something that is constantly changing, and we will need to be flexible to the changes that are presented to us. When we do reflect on what is hap-

pening, remember to remain calm and reassuring. Our children will react to both what we say and how we say it. We have to be the role models for our kids in terms of following recommended guidelines for managing COVID-19. Children are intensely watching our actions even more than our words. We will live our mission of serving with passion to ignite the creativity, innovation, and excellence that we have come to expect as Panthers. We've got this! We are WS!

Ryan G. Rieber, Superintendent

# **Important School Year Start Info**

Our school year will start off virtually the month of September. Each building will be in contact with families as far as plans for picking up student technology and any other beginning of the year items. The status of our return to school will be reevaluated continuously and an announcement will be made on September 30 as to whether there will be a change in the instructional model. This model (virtual, blended, in-person) will be implemented on Monday. October 5th. However, if we would be in the RED category on the LaCrosse County Compass, learning would remain virtual. When we are able to return to our buildings for in-person learning, students and staff will be required to wear face coverings in accordance with the CDC and LaCrosse County Compass.

There will be communication coming out from the District in the middle of August on how we are updating and changing our modes of instruction compared to what it was in the spring in all of our buildings. Based on feedback from our parents, students, and staff, we are working to make changes and work to provide the high quality of education that our students, parents, and community have come to expect.

We have streamlined our learning platforms throughout our district. Our students K-2 will be using the See-Saw platform for remote learning, students in grades 3-8 will be utilizing Google Classroom, and students 9-12 will be using Schoology. We are working to ensure that every child K-12 in our district will have a device to be able to access and use these platforms. More information and instructions on these will be coming from our buildings.

Thank you parents for your patience with this. We are working to ensure the safe return to school for our students and staff and are reliant on the county health department to inform us of what safe is. To ignore or not follow these guidelines would be to fall short on our promise to ensure the safety of our students, staff, and families. Our continuous work and preparation will be communicated out. Thank you for your help and cooperation!

# WSMS Student a Winner in National Art Contest

West Salem Middle School 6th grader Caralyn Parry was recently selected as one of 50 winners in the 5th Annual Meemic Masterpieces Art Contest. The contest is hosted by Meemic Foundation for the Future of Education and was open to students nationwide. The theme for this year's contest was "Futuristic."
