

Good Afternoon West Salem Families,

We are happy to be able to provide on-campus testing as a convenience for our students and staff. We have a couple of updates to share with you in regards to the registration and testing process. If your child needs to be tested, you will need to register them and provide consent beforehand. The original link we shared with you for this process has changed. Please use the updated link below if you need to register your students.

[Registration and Consent Form](#)

In order to help streamline the process and make it more efficient for our nursing staff, we are asking that if your student does need to test, that you sign up for an appointment time using the Sign-Up Genius below. At this time, all testing will be taking place near the West Salem High School Fitness Center doors. You may drive up along the side of the building and walk up to the doors and the tester will let you in the building.

[COVID Testing Appointment Sign-Up](#)

This information can also be found on our district website under the “COVID-19” tab.
Thank you for your cooperation and assistance,

Kate Brohmer, RN
District Nurse
