

# LANGUAGE APPS FOR KIDS

## 1. LetterSchool

A fun tracing app to help kids learn to write their letters and numbers. The different drawing options make learning to write fun.

## 2. ABC Ninja

An exciting educational game that helps children rapidly learn their letters by sight, sound, and touch ninja-style.

## 3. Learn Sight

See and hear over 300 sight word flashcards. In most schools, children are expected to learn these “high-frequency” words by sight, without sounding them out.

## 4. Endless Alphabet

A fun way for children to learn their letters and sounds they make.

## 5. Endless Wordplay

A great app for expanding your child’s vocabulary and improving spelling.

## 6. Endless Reader

Endless Reader is a follow-up to Endless Alphabet and sets the stage for early reading success by introducing sight words for reading fluency.

## 7. ABC Mouse

You can subscribe to [www.abcmouse.com](http://www.abcmouse.com) from within this app, and have different accounts for each of your children.

8. Spelling City

A fun way to learn spelling and vocabulary words by playing engaging games using any word list.

9. News-O-Matic

New articles every day to inspire kids to love reading the news - and understand what's happening in the world.

10. StoryBots

The StoryBots app makes storytelling even more magical by making your child the star of a beautifully illustrated and animated storybook that features their face and name.

11. Kid in Story Book Maker

A great way to create personalized stories with your children. You can use the provided story templates, change the photos, and listen to your own recording.

12. TeleStory

Children can write, direct, and star in their own TV show! Pick a theme, then mix and match over 30 animated scenes to film your own Story.

13. Kindoma Storytime

Share a bedtime story with your child long distance over video chat! Great for military families, grandparents who live far away, or whenever you have to be apart from your little ones.
