## INDEPENDENT AUDITOR'S REPORT

Members of the School Board  
School District of West Salem  
West Salem, Wisconsin

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the School District of West Salem ("District") as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit

procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2020, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Other Matters**

#### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other schedules identified in the Required Supplementary Information section be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary information identified in the table is contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards, as required by *Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*, as well as the schedule of expenditures of state awards and other supplemental information listed in the table of contents, are presented for purposes of additional analysis and are also not a required part of the basic financial statements.

The combining statements and individual nonmajor fund financial statements, the schedule of expenditures of federal awards, the schedule of state financial assistance, and other supporting schedules as listed in the table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, these schedules and statements are fairly stated in all material respects in relation to the basic financial statements as a whole.

**Other Reporting Required by Government Auditing Standards**

In accordance with Government Auditing Standards, we have also issued our report dated November 16, 2020 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

**MANAGEMENT' S DISCUSSION AND ANALYSIS**

West Salem School District  
**Management's Discussion and Analysis - Continued**  
Year ended June 30, 2020

This discussion and analysis of the School District of West Salem's financial information provides an overall review of financial activities for the fiscal year. The analysis focuses on School District financial performance as a whole. Revenue and expense comparisons to the prior fiscal year are used throughout this discussion and analysis letter. It should be read in conjunction with the Letter of Transmittal at the front of this report and the District's financial statements, which immediately follow this section.

**Financial Highlights**

Total governmental funds revenues were \$27,027,034; including \$9,282,946 of property taxes, \$13,213,617 of state aids and grants, and \$1,053,977 of federal grants. Total governmental fund expenditures were \$28,000,058, including \$12,391,405 for direct instruction. Other financing sources proceeds from long-term debt of \$830,000 and proceeds from sale of fixed assets of \$2,371.

The District's total long-term obligations decreased by \$5,410,576. The liability for General obligation bonds decreased by \$640,000 capital leases decreased by \$288,852, accrued interest on debt decreased by \$21,143, premium on bonded debt refinancing decreased by \$22,392, supplemental pension benefits decreased by \$117,862, post-retirement health care and other benefits increased by \$395,190, and the liability for sick and vacation payable increased by \$47,396. The District's share of the net pension liability for the Wisconsin Retirement System decreased by \$4,784,056. See page 7.8-7.9 for a discussion on proceeds from bonds for referendum approved capital projects.

The District's financial position as of June 30, 2020, as reflected by total net position, was \$27,408,998 an increase of \$938,964 from the District's restated July 1, 2019 net position. The July 1, 2019 net position was restated to reclass \$189,280 of student activity funds from a fiduciary fund to its special revenue trust fund in anticipation of fully implementing GASB Statement Number 84 in the fiscal year ending June 30, 2021.

**Overview of the Financial Statements**

The comprehensive annual financial report consists of three parts: management's discussion and analysis, basic financial statements including notes to the financial statements, and required and other supplementary information.

The basic financial statements consist of two kinds of statements that present different views of the District's financial activities.

- The *Statement of Net Position* and *Statement of Activities* provide information on a District-wide basis. The statements present an aggregate view of the District's finances. District-wide statements contain useful information for the just-completed fiscal year.
- The remaining statements are *fund financial statements* that focus on individual parts of the District. Fund statements generally report operations in more detail than the District-wide statements.

Year ended June 30, 2020

The notes to the financial statements provide further explanation of some of the information in the statements and provide additional disclosures so statement users have a complete picture of the District's financial activities and position.

Required and other supplementary information further explains and supports the financial statements by including additional schedules on pension and OPEB information and also a comparison of the District's budget data for the year.

The major features of the District's financial statements, including activities reported and the type of information contained is shown in the following table.

	District Wide Statements	Fund Financial Statements

**District-wide Statements**

The District-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Activities reports all revenues and expenses used to support District activities. The two District-wide statements report the District's net position and how it has changed. Net position, the difference between the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, is one way to measure the District's overall financial position. Increases or decreases in the District's net position are one indicator of whether its financial position is improving or deteriorating, respectively. To assess the overall financial condition of the District, additional non-financial factors, such as changes in the District's property tax base and the condition of the school buildings and other facilities should be considered. In the District-wide financial statements, the District's activities are divided into two categories:

- Governmental activities – All of the District's basic services are included here, such as regular and special education, transportation, support services, debt service, capital projects, community programs, food service and administration. Property taxes and state equalization aid finance most of these activities.
- Business-type activities – Activities that are intended to be mostly self-supporting and meet certain accounting criteria are considered business-type activities. The District has no business-type activities.

**Fund Financial Statements**

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of sources of funding and spending on particular programs and to demonstrate compliance with various regulatory requirements. Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes (such as repaying its long-term debt) or to show that it is properly using certain revenues (such as capital project funds).

The District has two kinds of funds:

- Governmental funds – Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for funding future basic services. Governmental funds statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Governmental funds information does not report on long-term commitments, as is reported on the District-wide statements.

West Salem School District  
**Management's Discussion and Analysis - Continued**  
Year ended June 30, 2020

**Fund Financial Statements - Continued**

- Fiduciary funds – The District serves as a trustee, or fiduciary, for its scholarship funds and employee benefit trust fund. The assets of these organizations and trust funds belong to the organization or trust and not to the District. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and only by those to whom the assets belong. These activities are excluded from the District-wide financial statements because the District cannot use these assets to finance its operations.

**Financial Analysis of the District as a Whole**

Table 1, below, provides a summary of the District's net position for the year ended June 30, 2020, compared to 2019. The District's total net position was \$27,408,998 at June 30, 2020.

**Financial Aspect of the District's Fund Balance**

The District completed the year with a total governmental fund balance of \$3,589,181. The fund balance decreased \$140,653 from last year's ending funding balance of \$3,729,834. Important factors affecting fund balance include:

- The District fund balance was reduced by \$337,651 to payoff Auto Shop loan in June 2020.
- The District fund balance was reduced by \$470,000 to payoff replacement of roof project expected to be finalized in 20-21 school year.

**General Fund Budgetary Highlights**

The District reviews an interim budget in May for the subsequent year (beginning July 1<sup>st</sup>). Consistent with current state statutes and regulations an *original* budget is adopted in October, following determination of official enrollment and certification of general state aids. Generally, the original budget is not significantly modified. The District modified its original expenditure budget in 2019-20 by a net of \$21,451 that included increased revenues and reallocations between building budgets mainly due to receiving School Safety Grant funds to upgrade safety and security at our campus.

**Capital Asset and Debt Administration**

**Capital Assets**

At the end of fiscal year 2020, the District had invested \$74,869,143 in capital assets, including buildings, sites, library books, and equipment (See Table 4). Total accumulated depreciation on these assets equaled \$23,773,421. Asset acquisitions for governmental activities totaled \$2,214,299. The District recognized depreciation expense of \$1,791,117 for the year ended June 30, 2020. Detailed information about capital assets can be found in Note 6 to the financial statements.

**Long-Term Debt**

At year-end, the District had \$26,642,791 in general obligation bonds and capital leases payable – a net decrease of \$928,852 from July 1, 2019. During the year, the School District issued \$830,000 of general obligation promissory notes, of which \$500,000 was paid on the debt in 2019-20 for the renovations of the multipurpose event center and the payoff of the addition of the high school auto shop.

Debt of the District is secured by an irrevocable tax levy adopted by the School Board at the time of issuance. Wisconsin state statutes require that the first property tax receipts be segregated to the debt service fund for annual debt service payments.

**Factors Bearing on the District's Future**

Current known circumstances that will impact the District's financial status in the future are:

- The impact of the continued current state fiscal practices.
- A successful referendum result in 2022.
- The district to maintain stable enrollment numbers.
- Managing the tax rate for all school district residents.
- Further decreases in federal grant dollars for Title I, Title IIA, IDEA, and Pre-School Grants.

**Contacting the District's Financial Management**

 IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES**  
 Year ended June 30, 2020

**Net change in fund balances - total governmental funds** \$ (140,653)

Amounts reported for governmental fund statements and the statement of activities are different because:

The acquisition of capital assets are reported in the governmental fund statements as expenditures. However, for governmental activities those costs are shown in the statement of net position and allocated over their estimated useful lives as annual depreciation expenses in the statement of activities:

Capital outlay reported as expenditures in governmental fund statements	\$ 2,214,299

Repayments of principal on long-term debt are reported in the governmental fund statements as expenditures, but are reported as a reduction in long-term debt in the statement of net position. There is no affect on the statement of activities.

The amount of long-term debt principal payments in the current year is:	\$	1,758,852
---	----	-----------

Pension and other post-employment benefit (OPEB) expense reported in the governmental funds represents current year required contributions into the defined benefit pension and OPEB plans. Pension and OPEB expense in the Statement of Activities is actuarially determined by the defined benefit pension and OPEB plans as the difference between the pension liability (asset) and OPEB liability from the prior year to the current year, with some adjustments.

School District of West Salem  
**NOTES TO FINANCIAL STATEMENTS**  
Year ended June 30, 2020

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. Introduction**

The School District of West Salem (the "District") is organized as a common school district. The District, governed by a seven-member elected school board, operates grades kindergarten through 12 and is comprised of all or parts of eleven taxing districts.

The financial statements of the School District of West Salem have been prepared in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting principles and policies utilized by the District are described below.

**B. Component Units**

Accounting principles generally accepted in the United States of America require that these financial statements include the primary government and its component units. Component units are separate organizations that are included in the District's reporting entity because of the significance of their operational or financial relationships with the District. All significant activities and organizations with which the District exercises oversight responsibility have been considered for inclusion in the financial statements. It was determined that the District has no component units, and it is not included in any other governmental reporting entity.

**C. Basis of Presentation**

**District-wide Statements** - The statement of net position and the statement of activities present financial information about the District's governmental activities. These statements include the financial activities of the overall government in its entirety except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities are financed in part by fees charged to external parties and users of the goods and services. The District has no business-type activities.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs; and

**District-wide Statements - Continued**

(b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

**Fund Financial Statements** - The fund statements provide information about the District's funds, including fiduciary funds. Separate statements for each fund category -- governmental, proprietary, and fiduciary -- are presented, if applicable. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as non-major funds. The District has no proprietary funds.

The District reports the following major governmental funds:

**General fund** - This is the District's primary operating fund. It accounts for all financial activity not required to be accounted for in another fund.

**Debt service fund** - This fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental activities.

**Capital projects fund** - This fund accounts for resources from long-term borrowing, segregated tax levy and other designated revenues used for the acquisition, construction and maintenance of capital facilities and other capital assets.

**Fiduciary funds (not included in the District-Wide Statements)**

The District operates the following fiduciary funds:

**Employee Benefit Trust Fund** - This is a separate accounting fund for reporting resources set aside and held in a trust arrangement for post-employment benefits. The District established this fund in the 2006-2007 school year.

**Scholarship Fund** - The scholarship fund is used to account for resources legally held in trust for student scholarships.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED**

**D. Measurement Focus and Basis of Accounting**

The District-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place.

The governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after the end of the fiscal year. Nonexchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District may fund certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Therefore, when program expenses are incurred, both restricted and unrestricted net position may be available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, followed by general revenues.

**E. Cash and Investments**

The District's cash and cash equivalents consist of cash on hand, demand deposits and short-term investments with original maturities of three months or less from date of the financial statements. Cash and investment balances for individual funds are pooled unless regulations require separate investment accounts.

Donations to the District of securities or other property are considered trust funds and are invested as the donor specifies. In the absence of any specific directions, the District may invest the donated items in accordance with laws applicable to trust investments.

All investments are stated at fair market value. Determination of fair value for investment in the state treasurer's investment pool is based on information provided by the State of Wisconsin Investment Board.

**F. Receivables and Payables**

The aggregate District tax levy is apportioned and certified by November 6 of the current fiscal year for collection to comprising municipalities based on the immediate past October 1 full or "equalized" taxable property values. As permitted by a collecting municipality's ordinance, taxes may be paid in full or in two or more installments with the first installment payable the subsequent January 31 and a final payment no later than the following July 31. On or before January 15, and by the 20th of February, the collecting municipalities pay proportionate shares of tax collections received through the last day of the preceding month to the District. On or before August 20, the county treasurer makes full settlement to the District for any remaining balance.

Any amounts reported on the statement of net position for due to and due from other funds represents amounts due between different fund types (governmental activities, business-type activities and fiduciary funds). Eliminations have been made for amounts due to and due from within the same fund type.

All accounts receivable are shown at gross amounts. No allowance for uncollectible accounts has been provided since it is believed that such allowance would not be material.

**G. Other Assets**

Expendable supplies or non-capital items acquired for initial use in subsequent fiscal periods are recorded as prepaid expenses. Prepaid insurance or service contracts are not recorded unless their recognition as expenditures would result in more than one year's cost being recorded. Prepaid supplies are valued at cost.

**H. Capital Assets**

Capital assets with a minimum cost of \$5,000 are reported at actual cost where possible; otherwise estimated cost was used based on District estimates of original cost. Donated assets are reported at estimated fair market value on the date received.

Depreciable assets are depreciated over their useful lives by the straight-line method. Estimated useful lives are as follows:

Land improvements	20 years
Buildings and improvements	50 years
Furniture and equipment	5-20 years
Licensed vehicles	8 years

**I. Retirement Plans**

District employees participate in the Wisconsin Retirement System. All contributions made by the District on behalf of its employees are reported as expenditures when corresponding salaries or wages are accrued.

**J. Deferred Outflows and Inflows of Resources**

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents an acquisition of net position that applies to future periods and will not be recognized as an outflow of resources (expenditure) until then. The District has one item related to its pension plan and one for its OPEB liability that qualify for reporting in this category.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents a consumption of net position which applies to future periods and so will not be recognized as an inflow of resources (revenue) until then. The District has one item related to its pension plan and one for its other post-employment benefits that qualify for reporting in this category.

**K. Accumulated Unpaid Vacation, Sick Pay, and Other Employee Benefit Amounts**

The District's policy allows employees to earn varying amounts of vacation pay each year depending on the total number of years employed. Vacation pay is granted on July 1 of the ensuing year and is not cumulative.

The District's policy allows twelve-month employees to earn and accumulate 12 days of sick leave and school-year employees to earn and accumulate 10 days of sick leave for each year of service up to 120 days. At retirement, all accumulated sick leave days from the date of hire shall be paid at 25%-50% of the current substitute per day pay rate based on the number of years of service with the District.

As provided in the employee handbooks, qualified employees meeting minimum age and length of service requirements may be eligible for certain pension and other post-employment benefits directly from the District. See Footnote 9 for further post-employment benefits explanation.

**L. Unearned Revenue**

The District maintains prepaid family lunch accounts for student lunches and the District records these balances as unearned revenue.

**M. Net Position Classification**

The District classifies its net position as follows:

- a. Net investment in capital assets represents the net depreciated value of capital assets less any remaining debt owed that was incurred to finance the acquisition of such assets.
- b. Restricted net position indicates that portion of net position that has been legally segregated for specific purposes.
- c. Unrestricted net position indicates that portion of net position for which the District has no legal financial obligation.

It is the District's policy to use restricted resources first, followed by unrestricted resources as needed when both become available.

**N. Fund Balance Classification**

The District classifies its fund balance as follows:

- a. Unrestricted, unassigned fund balance is the residual classification for the general fund and includes all amounts not contained in the other classifications. The District has adopted a minimum fund balance policy which states, "It is the goal of the District to maintain an end of the year General Fund (Fund 10) balance, amounting to between 12% and 17% of the next year's budgeted expenditures".
- b. Unrestricted, assigned fund balances include amounts that can be spent only for specific purposes stipulated by representatives designated by the board.
- c. Unrestricted, committed fund balances include amounts that can be spent only for specific purposes approved by the board.
- d. Restricted fund balances include amounts that can be spent only for the specific purposes stipulated by external resource providers (for example, grant providers), constitutionally, or through enabling legislation (that is, legislation that creates a new revenue source and restricts its use).

Fund balance classifications for restricted and all categories of unrestricted amounts are considered to have been spent when an expenditure is incurred.

When the District incurs an expenditure for purposes which various fund balance classifications can be used, it is the District's policy to use restricted fund balance first, then committed fund balance, assigned fund balance, and finally unassigned fund balance.

**O. Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from these estimates.

**P. Subsequent Events**

The District has evaluated subsequent events through November 16, 2020, the date on which the financial statements were available to be issued.

**NOTE 2 - EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND DISTRICT-WIDE STATEMENTS**

Differences between the governmental funds statement of revenues, expenditures and changes in fund balance and the statement of activities fall into one of three broad categories.

- a. Long-term revenue differences that arise because governmental funds report revenues only when they are considered "available," whereas the statement of activities reports revenues when earned. Differences in long-term expenses arise because governmental funds report on a modified accrual basis whereas the accrual basis of accounting is used on the statement of activities. The long-term expense adjustments report the differences between the two accounting methods used in recognizing vested employee benefits.
- b. Capital asset related differences between recording expenditures for the purchase of capital items in the governmental fund statements versus increasing non-current assets on the statement of net position and recording depreciation expense on all capital items in the statement of activities.
- c. Long-term debt transaction differences that occur because proceeds from debt issues and both interest and principal debt payments are recorded as revenues or expenditures, as applicable, in the governmental fund statements, whereas debt proceeds or principal payments are recorded as an increase or decrease, as applicable, in the statement of net position, and interest expense is recorded in the statement of activities as incurred.

**Investment Pool Information**

Participation in the State of Wisconsin Local Government Investment Pool (LGIP) is voluntary. The LGIP does not have a credit quality rating. The Pool is not registered with the Securities and Exchange Commission, but operated under the statutory authority of the State of Wisconsin. It is a part of the State of Wisconsin Investment Fund (SIF) and is managed by the State of Wisconsin Investment Board (SWIB). Funds invested in the LGIP are due to the District on demand. The fair value of the District's position in the pool is the same as the value of the pool shares. At June 30, 2020, the pool's fair value was 100 percent of book value.

SWIB may invest in obligations of the U.S. Treasury and its agencies, commercial paper, bank time deposits/certificates of deposit, bankers' acceptances, and asset backed securities and repurchase agreements secured by the U.S. Government or its agencies and other instruments authorized under the SIF investment guidelines.

**Investments Authorized by the District's Investment Policy**

The District is required to invest its funds in accordance with Wisconsin Statutes 66.0603 and 67.11(2). The District's investment policy is to invest in authorized funds that maximize the returns on the District's cash balances consistent with the safety of those monies and with the desired liquidity of the investments.

**Disclosures Relating to Interest Rate Risk**

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District's policy is to invest in funds that are available to the District at any time. The District has no certificates of deposit.

The District has investments with Trust Point with various maturities. The maturities are as follows:

Investment Type	Fair Value	Weighted Average Investment Maturities (in Years)			
		Less Than 1	1-5	6-10	More Than 10
Equity mutual funds	\$ 141,213	\$ 141,213	\$ -	\$ -	\$ -
Fixed income mutual funds	151,184	-	52,165	99,019	-

	<u>\$ 298,023</u>	<u>\$ 146,839</u>	<u>\$ 52,165</u>	<u>\$ 99,019</u>	<u>\$ -</u>

**Disclosures Relating to Credit Risk**

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The District holds a registered group variable annuity contract from American United Life Insurance Company (AUL). This account is not FDIC insured. Principal and interest rate guarantees are subject to the claims paying ability of the insurance company. AUL's financial strength rating by A.M. Best is A+ (superior) based on ratings as of June 30, 2020.

The District also holds equity and fixed income mutual funds through Trust Point. The fixed income mutual funds invest in bonds with various credit ratings. The underlying bonds in these funds are rated as follows by Morningstar:

Credit Rating	%
AAA	58.8%
AA	5.5%
A	9.6%
BBB	15.4%
BB	3.7%
B	3.1%
<B	1.4%

**Concentration of Credit Risk**

Concentration of credit risk is defined as an exposure to a number of counterparties engaged in similar activities and having similar economic characteristics that would cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions. The District's investment policy does not specifically address guidelines regarding concentration of credit risk.

**Custodial Credit Risk**

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover collateral securities that are in the possession of an outside party. The District does not have an investment policy that would limit the exposure to custodial credit risk for deposits. The District has securities pledged in its name to cover deposits exceeding federal depository insurance limits. The Wisconsin State Deposit Guarantee Fund provides coverage for uninsured and uncollateralized cash and investments for up to an additional \$400,000, but collection is not certain due to the limited size of the fund.

At June 30, 2020, the District had \$261,230 in deposits with financial institutions in excess of federal depository insurance (FDIC) limits that were collateralized. The District could have had uninsured amounts during the fiscal year.

The custodial risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The District does not have an investment policy that would limit the exposure to custodial risk for investments. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or government investment pools.

**Fair Value Measurements**

The District uses fair value measurements to record fair value adjustments to certain assets and to determine fair value disclosures. Assets measured at fair value as of June 30, 2020 are:

	Level 1	Level 2	Level 3	Total
Registered group variable annuity contract - AUL fixed interest account	\$ -	\$ 1,476,662	\$ -	\$1,476,662
Equity mutual funds	141,213	-	-	141,213

	<u>\$ 298,023</u>	<u>\$ 2,610,661</u>	<u>\$ -</u>	<u>\$2,908,684</u>

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 inputs are inputs-other than quoted prices included within level 1-that are observable for an asset or liability, either directly or indirectly.

Level 3 inputs are unobservable inputs for an asset or liability.

If the fair value of an asset or liability is measured using inputs from more than one level of the fair value hierarchy, the measurement is considered to be based on the lowest priority level input that is significant to the entire measurement.

**NOTE 4 - INTERFUND BALANCES AND TRANSFERS**

Interfund payables and receivables, all expected to be paid within a year and resulting from general operations of the District, for the year ended June 30, 2020 are as follows:

Receivable Fund	Payable Fund	Amount
General Fund	Employee Benefit Trust	\$ 11,077
Debt Service Fund	Capital Projects Fund	3,961

The District transferred \$628,609 from its general fund to its debt service fund to pay long-term debt principal and interest payments. The District also transferred \$100,735 from its general fund to its food service fund for current year losses in its food service fund.

**NOTE 5 - SHORT-TERM NOTES PAYABLE**

**NOTE 8 - EMPLOYEE RETIREMENT PLAN**

***Summary of Significant Accounting Policies***

***Pensions.*** For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Wisconsin Retirement System (WRS) and additions to/deductions from WRS' fiduciary net position have been determined on the same basis as they are reported by WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

***General Information about the Pension Plan***

***Plan description.*** The WRS is a cost-sharing multiple-employer defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011, and expected to work at least 1200 hours a year (880 hours for teachers and school district educational support employees) and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS.

ETF issues a standalone Comprehensive Annual Financial Report (CAFR), which can be found at <https://etf.wi.gov/about-eft/reports-and-studies/financial-reports-and-statements>.

***Vesting.*** For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998, and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011, must have five years of creditable service to be vested.

***Benefits provided.*** Employees who retire at or after age 65 (54 for protective occupation employees, 62 for elected officials and State executive participants) are entitled to receive an unreduced retirement benefit. The factors influencing the benefit are: (1) final average earnings, (2) years of creditable service, and (3) a formula factor.

Final average earnings is the average of the participant's three highest annual earnings periods. Creditable service includes current service and prior service for which a participant received earnings and made contributions as required. Creditable service also includes creditable military service. The retirement benefit will be calculated as a money purchase benefit based on the employee's contributions plus matching employer's contributions, with interest, if that benefit is higher than the formula benefit.

**NOTE 8 - EMPLOYEE RETIREMENT PLAN - CONTINUED**

Vested participants may retire at or after age 55 (50 for protective occupations) and receive an actuarially-reduced benefit. Participants terminating covered employment prior to eligibility for an annuity may either receive employee-required contributions plus interest as a separation benefit or leave contributions on deposit and defer application until eligible to receive a retirement benefit.

The WRS also provides death and disability benefits for employees.

**Post-Retirement Adjustments.** The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the "floor") set at retirement. The Core and Variable annuity adjustments granted during recent years are as follows:

Year	Core Fund Adjustment	Variable Fund Adjustment
2010	(1.3)	22.0
2011	(1.2)	11.0
2012	(7.0)	(7.0)
2013	(9.6)	9.0
2014	4.7	25.0
2015	2.9	2.0

2017	2.0	4.0
2018	2.4	17.0
2019	0.0	(10.0)

**Contributions.** Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for general category employees, including teachers, and Executives and Elected Officials. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

During the reporting period, the WRS recognized \$788,001 in contributions from the employer.

***Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions***

At June 30, 2020, the District reported a liability (asset) of (\$2,311,006) for its proportionate share of the net pension liability (asset). The net pension liability (asset) was measured as of December 31, 2019, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of December 31, 2018 rolled forward to December 31, 2019. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The District's proportion of the net pension liability (asset) was based on the District's share of contributions to the pension plan relative to the contributions of all participating employers. At December 31, 2019, the District's proportion was 0.07167119%, which was an increase of 0.00215832% from its proportion measured as of December 31, 2018.

For the year ended June 30, 2020, the District recognized pension expense of \$880,529.

At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

The total pension liability in the December 31, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date:	December 31, 2018
Measurement Date of Net Pension Liability (Asset)	December 31, 2019
Actuarial Cost Method:	Entry Age Normal
Asset Valuation Method:	Fair Value

Post-retirement Adjustments*	1.9%

\* No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 1.9% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate.

Actuarial assumptions are based upon an experience study conducted in 2018 that covered a three-year period from January 1, 2015 to December 31, 2017. The Total Pension Liability for December 31, 2019 is based upon a roll-forward of the liability calculated from the December 31, 2018 actuarial valuation.

**Long-term expected Return on Plan Assets.** The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

**Single Discount rate.** A single discount rate of 7.00% was used to measure the Total Pension Liability for the current and prior year. This single discount rate is based on the expected rate of return on pension plan investments of 7.00% and a municipal bond rate of 2.75% (Source: Fixed-income municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-year Municipal GO AA Index" as of December 31, 2019. In describing this index, Fidelity notes that the Municipal Curves are constructed using option-adjusted analytics of a diverse population of over 10,000 tax-exempt securities.). Because of the unique structure of WRS, the 7.00% expected rate of return implies that a dividend of approximately 1.9% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the municipal bond rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**NOTE 9 - SUPPLEMENTAL PENSION PLAN**

*Plan Description.* The School District of West Salem provided a single-employer defined benefit supplemental pension benefit administered by the District to eligible administrators and teachers.

*Benefit Provided.* Retirees who retired before July 1, 2012: The pension benefit was available to full-time teachers and administrators who were 55 years old and had 20 years of service with the District. The pension benefit is a cash-in-lieu of benefits equal to 80% of medical premiums for teachers, based on the individual's years of service with the District. Retirees are permitted to take cash-in-lieu of benefits instead of insurance for any years within their post-employment benefit period. There is a survivor benefit. There are no longer any eligible employees or retirees for the plan.

**NOTE 10 - POST-EMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS**

**Plan Description.** The District administers a single-employer defined benefit healthcare plan. The plan provides post-retirement healthcare benefits for eligible retirees and their dependents through the District's group health insurance plan. The plan covers both active and retired participants. As of the actuarial valuation date of June 30, 2019, there were 311 active participants, 3 retirees receiving benefits and 0 retirees eligible, but not receiving benefits in the plan. Because claim costs are generally higher for retiree groups than for active employees, the premium amount does not represent the full cost of coverage for retirees. The resulting additional cost, or implicit subsidy, is required to be valued under GASB Statement 75 related to Other Post-Employment Benefits (OPEB). Calculations are based on the OPEB benefits provided under the terms of the substantive plan in effect at the time of each valuation and on the pattern of sharing of costs between the employer and plan members to that point. Actuarial valuations for OPEB plans involve estimates of the value of the reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations of the OPEB plan reflect a long-term perspective.

A description of the single-employer benefit plan is as follows:

Retirees who retired before July 1, 2012: The OPEB benefit that was available to full-time teachers and administrators is no longer offered by the District, which included medical coverage subsidized by the District

Retirees who retire after July 1, 2012: The District will pay a benefit at retirement equal to \$2,000 per year for teachers (\$7,000 per year for Administrators) for a maximum of 30 years of service (15 years for Administrators). The teachers and administrators must be enrolled as a retiree with the WRS to be eligible for the OPEB benefit. Supervisors and other District staff with at least ten years of service with the District and enrollment with the WRS as a retiree will receive \$1,000 to \$6,000 for each year of service up to 15 to 30 years of service, depending on their position. See the District records for specific amounts per year of service and maximum years of service for each position. The benefit will be deposited at retirement into a Health Reimbursement Account (HRA) to be used only for eligible health insurance premiums through the District (for a maximum duration of COBRA) or another provider. There is a survivor benefit.

**Funding Policy.** The District has established a trust fund to finance the cost of its OPEB. Expenditures for these benefits are recognized on a pay-as-you-go basis in the fund statements and on the full accrual basis using the valuation methods required by the Governmental Accounting Standards Board (GASB) in the District-wide statements. There is no obligation on the part of the District to fund these benefits in advance.

**Net Other Post-Employment Benefit Liability.** The net other post-employment benefit liability (NOL) was measured as of June 30, 2019 and the total other post-employment benefit liability was determined by an actuarial valuation as of June 30, 2019.

**Actuarial Methods and Assumptions.** The District engaged an actuary to perform a valuation as of June 30, 2019 using the entry age normal, level percent of salary actuarial cost method. The asset valuation method used was the market value and the amortization period used was 30 year, open level dollar.

The total other post-employment benefit liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Discount rate	3.50%
General inflation	2.50%
Annual premium increase rate	7.50%
Decreasing .5% per year 6.50%, then by .10% per year down to 5.0%, and level thereafter	
Out of pocket rate increases, depending on age	3.25%-4.00%

Actuarial assumptions are based on an experience study conducted in 2018 using Wisconsin Retirement System (WRS) experience from 2015-2017.

Retirement rates were calculated based on age and years of service. Current and future retirees eligible for the lump sum HRA contribution in retirement are assumed to remain enrolled in the plans in which they are currently enrolled. 20% of active employees not eligible for the District-paid contributions and currently electing coverage were assumed to elect Single coverage on the District's plan for the duration of COBRA by self-paying their medical premiums in retirement. There was an assumption of no impact of dependent children on the implicit subsidy.

The discount rate used to measure the total other post-employment benefit liabilities was 3.50%, based on the expected long-term yield on Trust assets and the 20-year AA municipal bond rate as of the measurement date.

School District of West Salem  
**NOTES TO FINANCIAL STATEMENTS - CONTINUED**  
Year ended June 30, 2020

**NOTE 15 - RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District insures through commercial insurance companies for all risks of loss, except for health and dental care. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

**NOTE 16 - LIMITATION ON SCHOOL DISTRICT REVENUES**

Wisconsin statutes limit the amount of revenues school districts may derive from general school aids and property taxes unless a higher amount is approved by a referendum. This limitation does not apply to revenues needed for the payment of any general obligation debt service (including refinanced debt) authorized by either of the following:

- ◆ A resolution of the school board or by referendum prior to August 12, 1993
- ◆ A referendum on or after August 12, 1993

**NOTES TO REQUIRED SUPPLEMENTARY INFORMATION**  
Year ended June 30, 2020

**NOTE 1 - BUDGETARY ACCOUNTING**

Budgets are adopted each fiscal year for all funds in accordance with Wisconsin state statutes, using the budgetary accounting basis prescribed by the Wisconsin Department of Public Instruction. The legally adopted budget and budgetary expenditure control is exercised at the two-digit sub-function level in the general fund and at the function level for all other funds. Reported budget amounts are as originally adopted or as amended by School Board resolution.

The District follows these procedures in establishing the budgetary data reflected in the financial statements.

- A. Based upon requests from District staff, District administration recommends budget proposals to the School Board.
- B. The School Board prepares a proposed budget including proposed expenditures and the means of financing them for the July 1 through June 30 fiscal year.
- C. A public notice is published containing a summary of the budget and identifying the time and place where a public hearing will be held on the proposed budget.
- D. Pursuant to the public budget hearing, the School Board may make alterations to the proposed budget.
- E. Once the School Board (following the public hearing) adopts the budget, no changes may be made in the amount of tax to be levied or in the amount of the various appropriations and the purposes of such appropriations unless authorized by a 2/3 vote of the entire School Board.
- F. Appropriations lapse at year-end unless authorized as a carryover by the School Board. The portion of fund balance representing carryover appropriations is reported as a committed fund balance.

**NOTE 2 - BASIS OF ACCOUNTING**

The budget is prepared on the same modified accrual basis of accounting as applied to the governmental funds in the financial statements. There is a perspective difference between the budget and reporting under generally accepted accounting principles (GAAP). For budgetary purposes, the special education fund was budgeted separate from the general fund, but for GAAP, the two are combined.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Education  
School District of West Salem  
West Salem, Wisconsin

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the School District of West Salem, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 16, 2020.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weakness or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

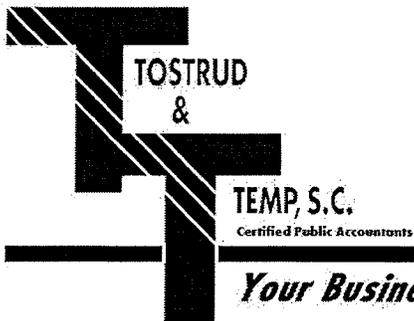

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH  
REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT  
ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER  
COMPLIANCE IN ACCORDANCE WITH THE UNIFORM GUIDANCE AND  
WISCONSIN STATE SINGLE AUDIT GUIDELINES

Board of Education  
School District of West Salem  
West Salem, Wisconsin

**Report on Compliance for Each Major Federal Program**

We have audited the School District of West Salem's compliance with the types of compliance requirements described in the OMB Compliance Supplement and the Wisconsin Single Audit Guidelines, issued by the Wisconsin Department of Administration that could have a direct and material effect on each of the District's major federal and state programs for the year ended June 30, 2020. The District's major federal and state programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

**Management's Responsibility**

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its federal and state programs.

**Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of the District's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), and Wisconsin Single Audit Guidelines, issued by the Wisconsin Department of Administration. Those standards and Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal and state program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the District's compliance.

***Basis for Qualified Opinion on the Child Nutrition Cluster***

As described in the accompanying schedule of findings and questioned costs, the School District of West Salem did not comply with requirements regarding the Child Nutrition Cluster as described in finding number 2020-001 for Special Tests and Provisions - Verification of Free and Reduced Price Applications. Compliance with such requirements is necessary, in our opinion, for the District to comply with the requirements applicable to that program.

***Qualified Opinion on the Child Nutrition Cluster***

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion paragraph, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on the Child Nutrition Cluster for the year ended June 30, 2020.

***Unmodified Opinion on Each of the Other Major Federal Programs***

In our opinion, the District, in all material respects, complied with the types of compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs for the year ended June 30, 2020.

***Other Matters***

The District's response to the noncompliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

***Report on Internal Control over Compliance***

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been

identified. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2020-001 to be a material weakness.

A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

The District's response to the internal control over compliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
