

REFERENDUM PROJECT UPDATES

What is Happening with the Construction Projects?

Great progress has been made in the past month. Bids are out and dirt will soon start moving at the elementary school!

Elementary Gym

The elementary school gym construction documents were complete at the end of July. Then, the project went out to bid. The school board will approve bids at the August meeting.

The photo to the right is the preliminary design of the exterior of the elementary gym addition. A groundbreaking for the elementary gym will be held on August 14 at 10:00 a.m. at West Salem Elementary School.

High School

The high school staff and leadership team continue to have meetings with ISG (Architecture & Engineering) and Kraus-Anderson (Construction Manager) on the design of each of the spaces. The career and technical education and fitness spaces have identified mechanical and electrical needs as well as discussed casework layout. The District held their last Community Group Meeting to get feedback on the design plans to ensure they will best serve our students now and in the future. We thank our local industry and trade experts that were involved in this process. To the right is a preliminary design concept of the exterior of the high school addition.

The next step will be cost estimation of the high school design development documents and board approval as we move into the final phase of design. We look forward to continuing to see these projects come to life.

Thank you for the continued support and interest in these projects!

What Is Next?

- Elementary School Gym Groundbreaking August 14 at 10:00 a.m.
- Bid approval and plan reviews at August school board meeting.
